

Wellness Apps

Please note: These apps are not affiliated with Academy of Art University, and the ARC does not endorse or guarantee the services offered. These apps are not meant to be used as a substitute for professional in-person or virtual support, but rather as a supplement.

Stress Management & Mindfulness

It's helpful to be proactive about recognizing and addressing stress before it starts to feel overwhelming. Check out ARC's list of [Virtual Student Health Resources](#).

7 Cups: Anonymous emotional support and counseling from trained, active listeners. Free 24/7 chat available either one-on-one or in a group.

Sanvello: Virtual self care, peer support, coaching, and therapy designed by psychologists. Can help reduce stress, anxiety, and depression. See website for insurance and pricing.

Happify: Interactive research-based activities and games that provide tools for increasing happiness and self-esteem. Free abbreviated version or paid subscription.

Healthy Minds: Free meditations and podcast-style lessons to develop skills in focus, stress reduction, and maintaining positive social connections.

Relaxation & Meditation

These techniques have been shown to reduce stress levels and improve overall mental health.

Headspace: Breathe, sleep, and relax. Free 1-10 minute guided meditations or paid subscription. Guided meditations also available through Netflix.

Calm: Relax with nature's images and sounds. Paid subscription for guided meditations, and calming sleep stories read by celebrities with soothing voices.

Insight Timer: Free meditations designed to reduce anxiety and improve sleep quality. Paid subscription for access to full library.

Wellness Apps Continued

Health & Fitness

Going outdoors or exercising at home can boost your energy and help you relax your body and mind.

Yoga for Beginners: Rated #1 by Oprah, quick and simple yoga workouts for all fitness levels. Also, check out [Yoga with Adriene](#) on YouTube.

MyFitnessPal: Take control of your fitness goals. Support your healthy lifestyle by logging activities and nutrition.

Map My Walk: Make your daily walks fun by mapping and sharing your favorite routes. Integrates with MyFitnessPal.

Nutrition

A well-balanced diet and staying hydrated can help improve your mood and provide you with energy to get through the day.

MyPlate: Build healthy eating habits one goal at a time. Pick daily food goals, join challenges, and earn fun badges.

SideChef: Easy, budget-friendly recipes with how-to videos.

Plant Nanny: Keeps track of how much water you drink. Each glass you drink waters your plant in the app so you can thrive together.
